In addition we provide

- Professional Corporate Based Support
- On Site Training Sessions
- Telephone, Fax and E-mail Support
- Dial Up Support
- Help Desk
- User Manual
- Networking / Hardware / Integration / Maintenance / Installation

WINHIRE USER COMMENTS

"I believe we have established the best software hiring system in Australia. We have no hesitation in recommending WinHire to any other hiring companies."
Brian Weiss - Stewart Barlen Hire, NSW

"WinHire is very easy to use and makes our business run much smoother."
Bob Dymond - Victorian Temporary Fencing, VIC

"WinHire is very adaptable to our company's needs."
Don Palmer - Leased Portable Buildings, NSW

"Happy to find a Windows based program to keep up with the growth of our company without being over complicated."
Shane Smith - SOS Hire, QLD

"WinHire is easy to use. All our staff learnt how to use it quickly. Our business now runs more efficiently, allowing us to spend more time on other aspects of our business."
Robert Poot - Jacques Party Hire, NSW

"Looking for a software program to control our operations was not easy, until we came across BelSoft with its WinHire program. WinHire, being a windows based system suited us. We have been able to adapt our systems requirements into this program, as well as having an accounting package developed to suit our needs."
Geoff Giddings - Australian Skyreach Rentals, QLD

The Easy Way To Hire On-Line

WebHire is the Internet arm of WinHire. With WebHire, users of WinHire now have the option of displaying their stock on the Internet and receiving orders on-line.

Receiving orders on-line is only 3 simple steps away:

STEP 1: WinHire User, through the click of a single button, sends their stock to the webhire site www.webhire.com.au

STEP 2: On-line Hirer views webhire site www.webhire.com.au and selects appropriate stock via the use of a secure shopping cart.

STEP 3: On-line Hirer sends an order to WinHire User outlining selected stock via email (or alternatively rings or faxes the order through)

INTRODUCING THE WINHIRE RENTAL SYSTEM

I would like to take this opportunity to introduce the WinHire software package to your organisation.

Does your hiring business spend too much time filling out forms and sorting through piles of paperwork? Do you have difficulties managing your database and accounts? If you answered yes to either of these questions, BelSoft has the solution.

BelSoft is an Australian owned company that understands your business needs for time management and thorough work practices. This is why BelSoft developed WinHire: Australia's Ultimate Rental System.

WinHire is a flexible, easy to use software package that can manage all aspects of your hiring business including entering jobs, processing returns, generating invoices, tracking debtors and producing customer statements.

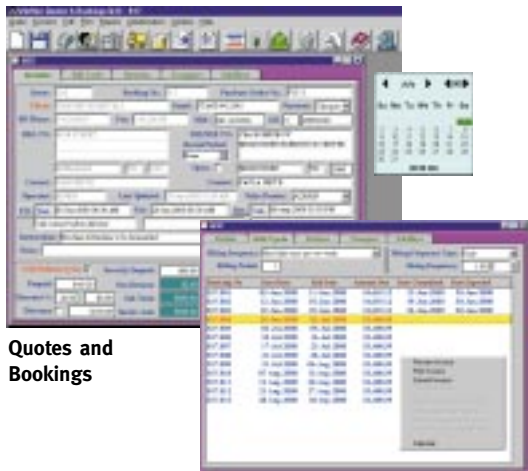

Today, WinHire controls the operations of some of Australia's largest hire and rental companies. Since incorporating WinHire, these companies have discovered that "business has become so much easier".

BelSoft is dedicated to keeping WinHire at the leading edge of technology. As example of this dedication BelSoft has recently launched WebHire, the Internet arm of WinHire. Through WebHire, users of WinHire now have the option of displaying their stock on the Internet and receiving orders on-line.

If you want your business to remain ahead of its competition, give BelSoft a call on 03 9484 3603 and ask for a demonstration CD of WinHire to be sent out to you. It's the best investment your company will make this millennium.

Having difficulties managing your accounts and da

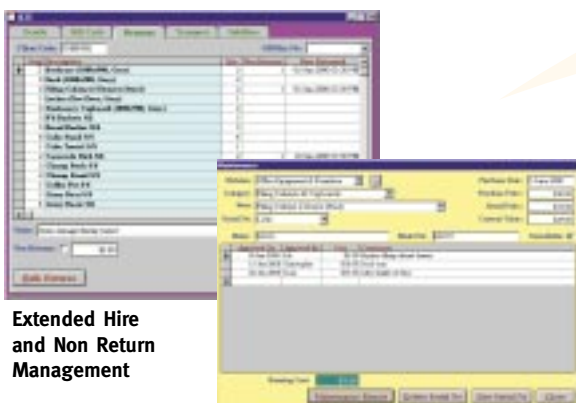

Quotes and Bookings

Bill Cycle

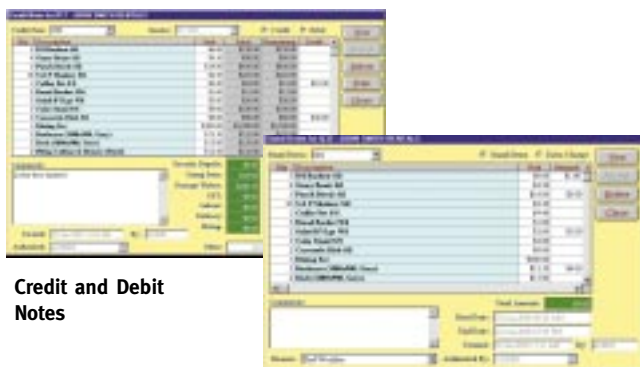

Hire Screens

Extended Hire and Non Return Management

Maintenance

Credit and Debit Notes

Stand Downs and Extra Charges

QUOTES AND BOOKINGS

- Separation of Quotes and Bookings to keep inventory levels totally accurate
- Enter Quote details whilst talking on the phone and all features available at your fingertips with point and click
- Produce invoices, picking slips, quotes with in built forms or design your own using other Office documents
- Multiple Quotes open at the same time with cut and paste options
- WinHire is very flexible in entering transport and labour charges as well as complete sub hire information
- Sales and Purchase Orders work in a similar way

BILL CYCLE

- Put in any billing plan once and let WinHire take care of the rest
- Invoice runs can easily be produced for cyclic quotes either weekly or monthly
- Partial off - hired items are included during a cyclic period automatically

HIRE SCREENS

- Standard / Dimension / Length / Standard with Attributes / Miscellaneous
- Navigate with ease to each inventory page
- Stock available during hiring period calculated by clicking in Qty field
- Allows stock that is not in inventory into sub hire screen. This sub hired stock is kept separate and appears on delivery and pickup reports
- Instant calculation of stock tested with tens of thousand Bookings, five thousand items and twenty concurrent users

EXTENDED HIRE AND NON RETURN MANAGEMENT

- Handles early, late or non returns
- Any part of a kit can be returned in full or partially, late or not at all
- Cyclic billing invoices are adjusted automatically
- Produce return dockets and non return invoices
- Quickly enter information by using bulk feature

MAINTENANCE

- Enter Serial Numbers for related items
- Enter Maintenance schedules for serialised items
- Track serialised items separately
- Maintenance and Depreciation Reports available displayed and printed

CREDIT AND DEBIT NOTES

- Raise Credit and Debit Notes against any invoice and against individual invoice charges
- Breakdown of each charge associated with Booking and remaining amount available for Credit
- Multiple Credit and Debit Notes for the same invoice
- Automatically tracks remaining amount for credit for each charge
- Print Credit and Debit notices

STAND DOWNS AND EXTRA CHARGES

- Enter Stand Downs for any item when not being used
- Extra charges can be applied to any item on hire
- Multiple Stand Downs and Extra Charges for the same Booking
- Updates billing information to reflect Stand Downs and Extra Charges

BRANCHES

- WinHire can be run in branch mode with one central branch and many other branches
- Stock is divided between branches and any branch can negotiate stock movements between itself and the central branch
- All hiring information such as invoices, credit notes can be uploaded to central branch via modem for central consolidation
- Reports can be grouped by any branch combinations
- Very robust interface secure protocol to eliminate data integrity loss

Database? Here's the solution!

COMPLETE KIT MANAGEMENT

- Kits can be made up of simple items, single or double dimensioned items, items with multiple attributes or even other kits
- Dimensioned kits can be extended in one direction by a repeating factor
- Kits can be changed on the fly for each job
- Most extensive kit facilities on the market and so easy to use

PAYMENTS

- Fully functional debtor system
- Enter payments against customer's outstanding invoices
- Complete tracking of transactions
- Complete suite of debtors reporting
- Can be connected to till and EFTPOS systems

RECEIVABLES

- Shows aging receivables by customer
- Sort Receivables by client name or outstanding amount for ease of debtor recovery
- Roll back receivables to any historical date
- Generate Customer Statements

ACCOUNTING DOWNLOAD

- Very robust interface to common Accounting systems, such as Attaché, MYOB and Quickbooks
- Complete tracking and audit files of all download activity with log files
- Can generate files only to send to other branches for importing
- Can select items to re-export so as to provide a complete back-tracking path
- Can connect directly to accounting system from this screen

BAR CODES

- Bar codes are fully integrated into WinHire. Items can easily be located by barcode in hiring out phase
- On return, simply scan in items and bookings will be automatically updated
- Defer assignment of bar coded stock until time of picking
- Sub hired stock is separated out at time of booking and return

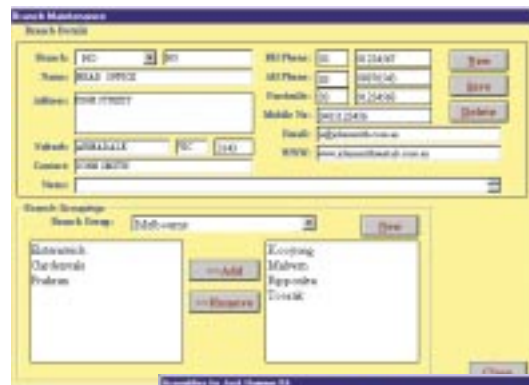

REPORTS

- Financial / Stock / Other Reports
- Customisable Reports
- Publish as HTML Web Pages
- Sub Hire
- Item Search
- On Site
- Daily Deliveries / Pickups
- Daily Returns / Collect
- Event Load List by Stand / Distribution
- Utilisation
- Inventory
- Availability
- Detail Period Sales
- Sales by Salesperson - Summary / Detailed
- Sales by Division
- Summary of Clients
- Credit Notes
- Payments Received
- Quotes and Bookings by Salesperson
- Comments by Salesperson
- Invoices by Event
- Client Listing
- Debtor Reports
- Revision History

OTHER FEATURES

- Automatic historical archiving into another database
- Run WinHire off line and / or remotely
- Reports can be e-mailed or faxed directly from WinHire
- Extract any information in WinHire into our other Office documents by way of powerful merge facilities
